

August 22, 1978

Fellow Members:

A long over-due newsletter is now before you, it is not as full as those in the past, and it is not as multi-paged. But it is a report to you about what A.B.A.T.E. of Washington is doing and that is what counts.

There is a serious re-assessment of the organization in the process at this time. By-laws are being written up, membership roles are being up-dated, goals and priorities are being considered once again. A long year has passed almost and it has been a year of sorting things out for us.

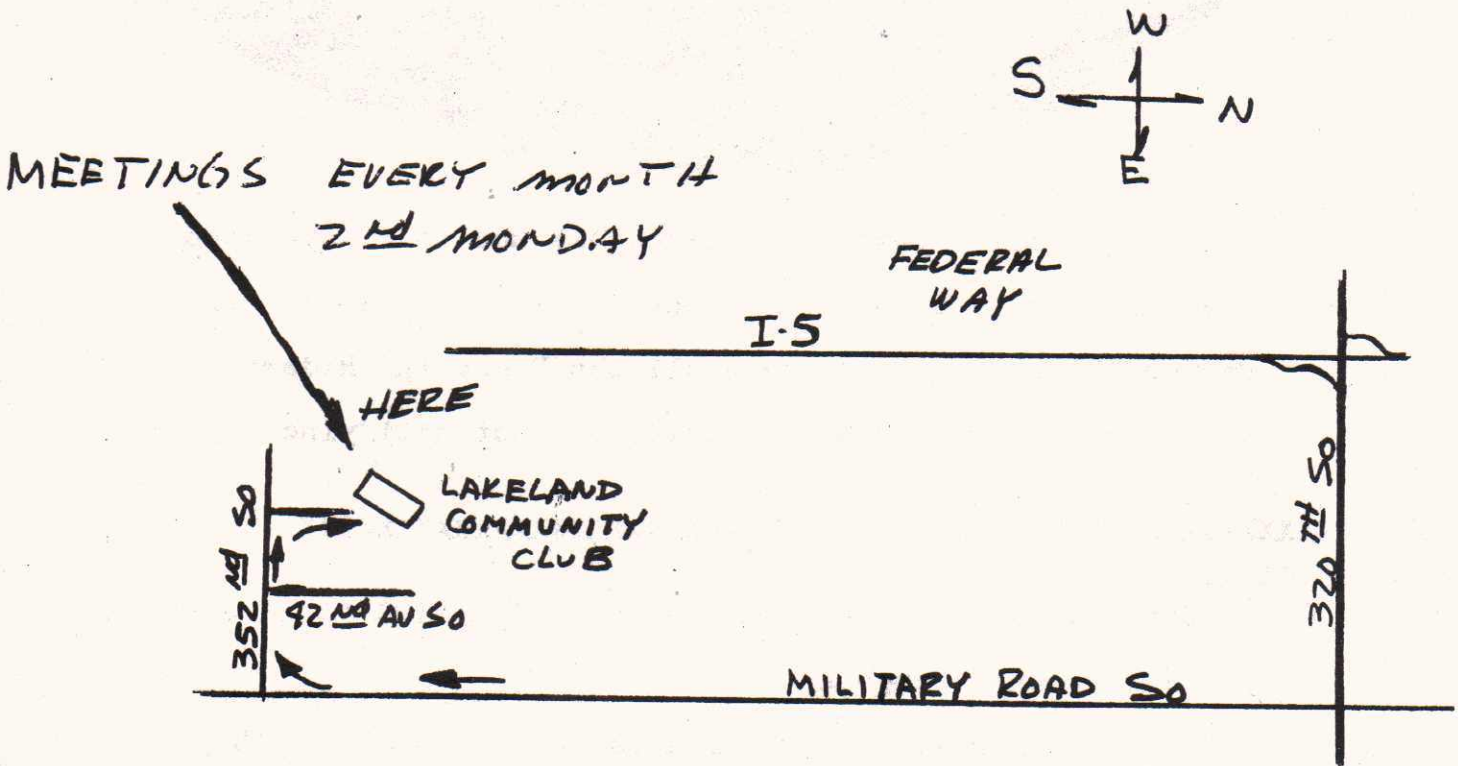

I would like to list these points that I believe are important for the expansion and success of A.B.A.T.E. They are as follows;

- 1) A re-dedication of bikers toward freedom of the road.
- 2) The establishment of A.B.A.T.E. chapters by local members in northern, eastern, and southern Washington.
- 3) A year pre-planned schedule of A.B.A.T.E. functions for 1979.
- 4) Membership drives that produce members.

If we as an organization can get these goals accomplished in the coming winter months then the summer of '79 will be one that A.B.A.T.E. has not seen for some time.

This has to be short for obvious reasons, but I'd like to end with this, there's a meeting the 2nd monday of next month and it would be really outstanding to see a lot of people there. So lets set that night apart and make a point of attending, its your organization.

With Respect,
Greg Walker
Deputy State Coordinator
